#### **Business-Owner Clients**

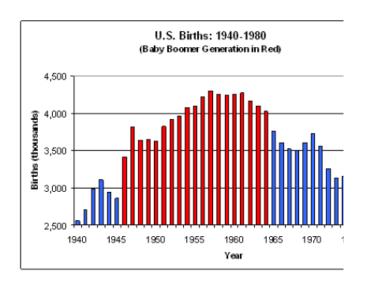

- Our target market is "Silver Tsunami" Baby Boomer Business Owners with annual revenues >\$5 million.
- Statistics show that over 70% of Business Owners' assets are typically locked up in their businesses.
- The majority of businesses that go to market don't sell, leaving those Owners without solid options.
- An Owner/CEO who is "ready" with an attractive business greatly increases the odds that the business will find a serious buyer.
- We work with Owners/CEOs to approach the exit strategy with the same focus and drive that helped to build their businesses.

## The "Silver Tsunami" - Baby Boomer Age Wave

## **Baby Boomer Characteristics**

- > SHEAR SIZE
- CRISIS GENERATION
- NOT ENOUGH JOBS SO STARTED BUSINESSES
- MOST ENTREPRENEURIAL IN HISTORY - 1 OUT OF 3 CREATE BUSINESSES
- RISK TAKERS
- RE-INVENT THEMSELVES OVER AND OVER
- > PLEASURE
- > LIVE FOR NOW!

## Age Wave

- First boomers turned 65 in 2011; 10,000 turn 65 everyday; the youngest are now 50.
- Own 63% of the private businesses in U.S.
- 80-90% of their wealth is tied up in their businesses
- EPI recent survey confirms: 76% plan to transition over the next 10 years; 48% in the next 5 years
- Represents a transfer of 4,500,000 businesses and over \$10 trillion of wealth

### **Business Exit Challenges**

## Challenge #1 50% of exits are not voluntary

- Death
- Disability
- Divorce
- Distress
- Disagreement

 All of the above are contingencies that can be planned for

#### Challenge #2

- Owners are leaving \$ on the table because they are focused on income generation; not focusing on enterprise value
- Income does not automatically translate to value
- Most businesses are not salable and do not make it through the second generation

#### Exit Strategy = Business Strategy

- Exit Strategy is about creating, harvesting, and preserving family wealth for generations to come.
- It is about implementation of good business practices.
- Focusing on enterprise value drives positive outcomes for all including better lifestyle.
- Investment is justifiable with growth of enterprise value as the goal.
- Working as a team uncomplicates the process and improves the experience for owners.

### **Emergency Operations Plan**

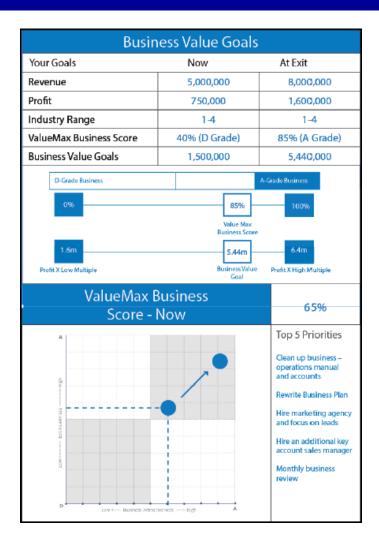

#### What an Emergency Operating Plan (EOP) is and is not...

One of the first steps in de-risking the business is to develop an Emergency Operations Plan (EOP). For a closely-held business, this is usually a high-level 2-4 page document that informs key people, advisors, and family members about how the business will operate when the person currently in charge is not available.

- Provides specific steps for what to do if the Owner/Operator cannot work for a stated period of time.
- Addresses operations and not ownership: A Buy-Sell Agreement addresses ownership issues.
- Identifies who takes over the Owner/Operator's and other employees duties resulting from triggering events.
- Identifies what the authority of senior team members: hiring, firing, check writing, etc.
- Points out when an outside operator should be considered.
- Outline considerations of whether the business should be sold to an insider or third party.

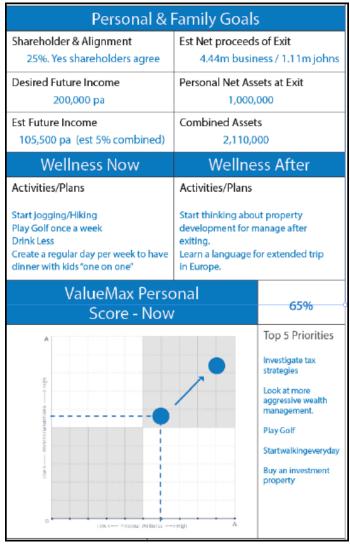

### Assessment - Business Value Goals (PMI Advisors)

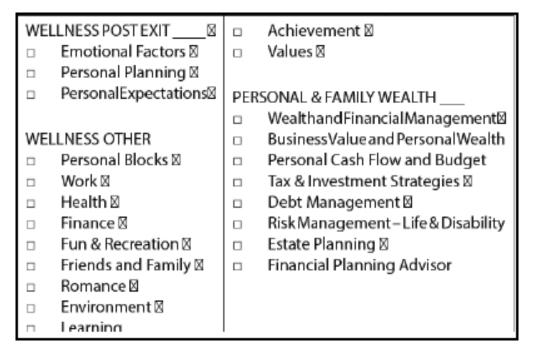

## Over 150 Questions in 20 Functional Areas to Perform a Deep-Dive Assessment

### Assessment - Personal & Financial Goals (Wealth Advisor)

## **Baseline for the Development of a Comprehensive Financial Analysis**

## Deal Readiness Rating® - Assessment Report

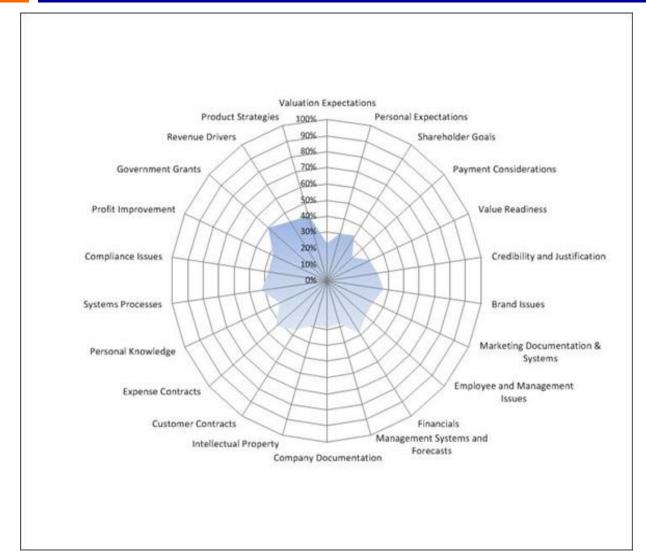

#### **Business Operations/Risk Assessment**

We interview the Owner/CEO and senior management (optional) for input on over 20 functional areas, including HR, IT, Legal, Financial and Operations, to name a few. We then combine this information with financial analysis to build the Business Operations/Risk Assessment Report.

With this +60 page report, you are able to establish a clear definition of the current business health so that those shortcomings can be improved before launching the sales process.

## The Assessment Report - Presentation

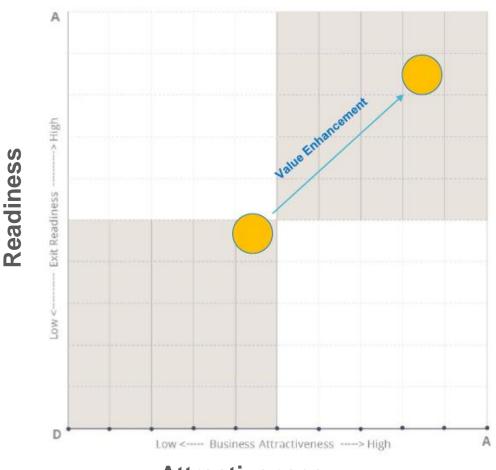

#### **The Assessment Report**

In addition to the narrative, the Assessment Report present the findings and analysis in a graphical format that is easily understood.

#### Assessment - Shareholder Alignment

#### **Shareholder Alignment**

- When they will sell
- Who they will sell to
- How long they are prepared to work in the business after the exit transaction is completed
- Whether they would be prepared to settle for part payment or shares with bonus incentives or whether it should be cash
- Staff or other stakeholders' potential proceeds of the sale, so an estimated net proceeds calculation can be done for each shareholder/owner

## Strategic / Business Plan Development

#### **Strategic Plan Sections**

- Executive Summary
- Business Analysis
- Sales Analysis
- Market Analysis
- Competitor Analysis
- SWOT and Objectives
- Marketing Plan
- Production Plan
- Human Resource Plan
- Financial Strategies
- Financial Statements

Strategic planning is a disciplined effort that produces fundamental decisions and actions that shape and guide what an organization is, who it serves, what it does, and why it does it, with a focus on the future.

Effective strategic planning articulates not only where an organization is going and the actions needed to make progress, but also how it will know if it is successful.

- Set priorities
- Focus energy and resources
- Strengthen operations
- Ensure common goals of employees and stakeholders
- Establish agreement around intended outcomes/results
- Adjust the company's direction with a changing environment

### **Business Continuity / Succession Plan**

Continuity planning is an important tool for risk management as it provides a structured way to identify the sources of business disruption and assess their probability and harm.

Effective business continuity planning is a process that moves through five major steps. These steps have key planning activities associated with them and are best described as:

- Threat Assessment
- Identify Critical Functions
- Business Impact Analysis
- Prevention and Mitigation Planning
- Implement and Maintain the Plan

Monthly coordination meetings attended by members of the Board of Advisors and representatives of the project team are essential in maintaining the communication channels established during the schedule development. Procedures are established for obtaining information and approvals at all levels.

## Board of Advisors – Monthly Review Meetings

A Board of Advisors is composed of accomplished experts offering innovative advice and dynamic perspectives, providing non-binding strategic advice to the management of a company.

The informal nature of an Advisory Board gives considerable flexibility in structure and management to address issues and growth options.

The composition of the members of the Advisory Board may change periodically, depending upon the needs of the business.
